P.O. Box 295, 63 Enterprise Avenue, Berwick, Victoria, 3806 ABN:87 050 197 012

DEMTEC

VDB

- Fixed speed soil delivery
- Automatically stops and starts depending upon soil level in preceding machine
- Suitable for peat media
- Equipped with chain drive system for media movement
- 3 different sizes available 1000L, 3500L, 5000L
- Automatic level soil level sensing
- Equipped with heavy duty pneumatic tyres and jockey wheel as standard
- Strong steel construction
- Conforms with European safety standards (C.E)

The Demtec VDB can be used as either a static or mobile peat supply bunker. This machine is incredibly useful as it allows any potting operation to continue uninterrupted without the risk of running out of potting media. The VDB is equipped with a heavy-duty cleated chain soil transport system. It's ideal for growers using peat as the potting media. Growers using pinebark and coarse sand should use model Demtec DEN. Which uses a full width conveyor in the base.

Because the VDB is designed with mobility in mind the whole machine is constructed around a proper chassis. The included heavy duty towing arm allows for easy connection to a tractor for towing to the potting location if need be.

In Europe some growers also use the VDB as a dual use machine and utilize its high discharge in combination with a special discharge shoot for filling of advanced tree and shrub stock in containers above 30Litres.

Included with the model VDB

Proper chassis
Heavy duty pneumatic tyres
Proper towing arm
Automatic level sensing
Automatic / Manual Stop & Start
Heavy duty motor and gearbox
Available as 1000L, 3500L, 5000L
3 phase 230v/415v @50 Hz

Transplant Systems are totally committed to providing the worlds best equipment. Our policy is to provide the most technically correct machinery for your nursery and nursery application irrespective of manufacturer or country of origin. We stand by our commitment to you. By providing a unique and personalized service based upon the understanding of your nursery needs. We understand your need to meet performance objectives and work as your silent partner to achieve this, bringing modern, reliable nursery technology and working practices to your grasp. We are pleased to bring the Demtec range of machinery to you and trust that it will exceed your performance expectations.
